Redefining the farming success

avgust.com

Meet Avgust

The background features a large, abstract composition of overlapping shapes. On the left, a blue circle is partially covered by a larger green circle. Below the green circle, a yellow circle overlaps it. The entire scene is overlaid with a pattern of fine, wavy lines that create a sense of depth and movement. The lines are colored in shades of blue, green, and yellow, matching the background colors. The text 'Meet Avgust' is positioned in the upper left quadrant, rendered in a clean, white, sans-serif font.

Quality is our main ingredient

avgust 
crop protection

From our very first days on the market, we have always relied only on innovative solutions and the most advanced technologies.

Indeed, we became an authority and built our reputation as a strong partner thanks to our capacity to reliably supply products of the highest quality

We grow well. Together

Quality is our main ingredient

Quality control is provided 24 hours a day at all stages of the production cycle.

The modern instrumentation base allows us to study raw materials, semi-finished and finished products to maintain unfailingly high quality of all Avgust products

Manufacturing

avgust 
crop protection

Avgust is the only vertically integrated Russian pesticide company.

We own the largest formulation production sites in Russia and Belarus, reinforced by our brand new manufacturing facility for active ingredients synthesis, built in Hubei province, China.

A high degree of automation ensures the reliability of production processes, high quality and safety of products, as well as compliance with occupational safety conditions

The background features a series of concentric, wavy lines that create a sense of motion and depth. The colors transition from a vibrant blue on the left, through a bright green in the center, to a warm yellow on the right. The lines are most prominent in the upper half of the image and fade out towards the bottom.

**Responsible for health
and safety**

We grow well. Together

Responsible for health and safety

Avgust applies high standards in Health, Safety and Environmental (HSE) Policy.

As a large agrochemical company, we have a responsibility to protect the environment and to ensure the health and safety of our employees, customers and the communities in which we operate.

We maintain HSE management systems across all our production sites to ensure compliance with our own standards and external regulations

Reaping the rewards of science

We take sincere pride in the fact that our own research center helps us maintain one of the industry's top portfolios.

We strive for our products not only to match the leading solutions on the market, but to have improved characteristics that increase their effectiveness

We grow well. Together

Reaping the rewards of science

avgust 
crop protection

Avgust specialists benefit from a variety of research opportunities thanks to the Center's staff collaborations with the leading Russian and international specialists, and institutes of the Russian Academy of Sciences.

We rely on our own scientific achievements and innovations to offer comprehensive and professional solutions in the crop protection field, helping our partners increase the profitability of agricultural production and thus facilitating the development of farming businesses everywhere

We grow well. Together

Reaping the rewards of science

Enhance scientific research and upgrade the technological capabilities is our key priority.

To accelerate scientific discoveries, Avgust is completing the construction of a new state-of-the-art research Center.

The Center will focus on active ingredient synthesis technology, formulation development and primary screening of potential compounds with best chance for efficacy

By Farmers For Farmers

The background features a large, abstract composition of overlapping shapes. On the left, a blue circle is partially visible, containing a pattern of fine, wavy lines that transition from blue to yellow. To its right, a solid green circle overlaps it. Further right, another green circle with a similar wavy line pattern overlaps the solid green one. The overall effect is a layered, organic design with a color palette of blue, green, and yellow.
